Per Contract, Monitoring Instrument Staffing, Item 2b has been determined to be a Liquidated Damages Event monitoring item which results in this Continuation Breach Notice of the failure to cure in accordance with the First Breach Notice dated 11/11/2021 and Second Breach Notice dated 02/11/22. Due to this Continuation Breach Notice the State has elected to begin assessing liquidated damages as of the date of the First Breach Notice until such time as the event is confirmed to be cured, consistent with the terms of the contract.

Prior Documentation of Non-Compliance: NCR/LDE issued 11/11/2021, 2/11/2022

Action taken by TDOC Contract Monitor: Contract Monitor Brun notified Warden Frink daily following each occurrence. Contract Monitor Walton notified Warden and TTCC Quality Assurance team 2/25/22 and 3/16/22 via email; to include, notification through issuance of this non-compliance report.

Response of contractor and Plan of Corrective Action taken:

Please see attached chart reflecting post vacancies resulting from suicide watches, hospital post assignments, and/or after hours transports. Providing staffing for these unexpected circumstances is unavoidable and we respectfully request credit for each of these circumstances as noted in the chart. The remaining post vacancies are a result of staffing vacancies, staff calling out for shift, staff reporting late for shift, staff departing shift early, staff failing to report for shift, etc. ADO staff and TDOC continue to be notified of critical post vacancies, regardless of the reason for the vacancy.

TTCC is contractually required to operate 2 RHU pods. As a result of close custody inmates pending TDOC's transfer out of the facility, the facility is operating 5 RHU pods. The number of close custody inmates housed at the facility averages 86 inmates monthly and with the additional RHU pods being used places a greater burden on the facility staff to comply with RHU standards. Moreover, 5 additional full-time employees are needed, each day, to operate the additional 3 RHU pods. The number of close custody inmates pending transfer is communicated to TDOC on a weekly basis. TDOC has been unsuccessful in transferring the close custody inmates placing TTCC in violation of TDOC Policy 506.01. We respectfully request credit for the additional full-time employees assigned to the additional RHU pods as well as requesting, again, that the close custody inmates be transferred out of the facility.

In January 2019, the facility implemented a daily review of the upcoming shift rosters to ensure all required posts are appropriately scheduled for the next seven days, in an attempt to identify any likely vacancies in advance. The proactive review is conducted by a team of multi-disciplinary staff and generally includes the Warden, Assistant Warden of Operations, Chief of Security, Master Scheduler, on-duty Shift Supervisor, and the Human Resources Manager.

All supervisors will continue calling off-duty staff immediately upon notice of a vacant critical post to assist with shift coverage for officers that call out, fail to report for duty, or are assigned to hospital posts and/or suicide observation posts.

Non-compliance Issue(s):

On March 16, 2022 the Contract Monitor conducted a review of the February staffing report received from Facility Support Center (FSC) on behalf of TTCC. The review identified Correctional Officer position **4716495** attached on the requisition activity tab 2/28/22. The position is not documented with an attach date on the master matrix tab of this same report. As a result, TTCC does not meet this standard.

Per Contract, Monitoring Instrument Staffing, Item 6a has been determined to be a Liquidated Damages Event monitoring item which results in this Second Breach Notice of the failure to cure in accordance with the First Breach Notice dated 02/11/22. Due to this Second Breach Notice the State has elected to begin assessing liquidated damages as of the date of the First Breach Notice until such time as the event is confirmed to be cured, consistent with the terms of the contract.

1. Provide an explanation as to what was the corrective action taken previously for this item.

Corrective Action Plan Submitted TDOC on February 25, 2022:

As a result of a clerical error, requisition 4716858 listed an incorrect attach date. The attach date was corrected in JDE and a corrected report was submitted to the Contract Monitor via email on January 14, 2022.

The Human Resources Generalist will conduct training with the new Human Resources Manager and the Human Resources Assistant on the reporting process by March 15, 2022. The training will be documented on a 4-2A Training/Activity Attendance Roster.

2. Was the corrective action actually implemented?

Yes

3. What were the reasons the previous corrective action failed?

Due to processing times a clerical error resulted in the attach date not being added to the master matrix. The training for the process was held with staff while the monthly review was being conducted.

4. How will the upcoming POCA be different and ensure the action is truly corrected?

The facility will track transactions to ensure all dates are accounted for on the monthly report before being removed from the tracking format. A corrected report will be submitted by April 15, 2022.

On March 16, 2022 the Contract Monitor conducted a review of the February staffing report received from Facility Support Center (FSC) on behalf of TTCC. The review identified Correctional Officer position **4715898** detached on the requisition activity tab 1/16/22. The December report was incorrect, and a corrected report will be provided as part of the 02/10/2022 NCR response on Monday, February 28."* On 2/28/22, the Contract Monitor did receive the corrected December 2021 staffing report.

****Due to this item repeating non-compliance please provide an in-depth explanation for the following in addition to providing a new POCA:***

1. Provide an explanation as to what was the corrective action taken previously for this item.

Corrective Action Plan Submitted to TDOC on February 25, 2022:

Finding 1:

As a result of a clerical error, Requisition 4713964 listed an incorrect attach date. The attach date was corrected in JDE and a corrected report was submitted to the Contract Monitor via email on January 14, 2022.

Finding 1 & 2:

As a result of a clerical error regarding Employee #43239724, Requisition numbers 4716794 and 4716807 were affected on the November 2021 report. The error was corrected and a corrected report was submitted via email to the Contract Monitor on January 14, 2022.

Finding 3:

As a result of a clerical error, Requisition 4713753 had an incorrect detach date. The detached date was corrected in JDE and a corrected report was submitted via email to the Contract Monitor on January 14, 2022.

Finding 4:

Requisitions 4715003, 4715302, 4715741, 4715775, 4716639, and 4716815 were incorrectly attached to a contract requisition. These staff were not filling contract roles at that time.

The Human Resources Generalist will conduct training with the new Human Resources Manager and the Human Resources Assistant on the reporting process by March 15, 2022. The training will be documented on a 4-2A Training/Activity Attendance Roster.

The Human Resources Generalist will submit a corrected report to the Contract Monitor by February 28, 2022.

2. Was the corrective action actually implemented?

Yes

3. What were the reasons the previous corrective action failed?

We do not believe the corrective action failed. As noted, a corrected report for December was submitted on February 28, 2022, and the January 2022 reports were correct. It appears that the January 2022 report was inadvertently compared against the initial incorrect December 2021 report.

4. How will the upcoming POCA be different and ensure the action is truly corrected?

Response of contractor and Plan of Corrective Action taken:

In January 2019, the facility implemented a daily review of the upcoming shift rosters to ensure all required posts are appropriately scheduled for the next seven days, in an attempt to identify any likely vacancies in advance. The proactive review is conducted by a team of multi-disciplinary staff and generally includes the Warden, Assistant Warden of Operations, Chief of Security, Master Scheduler, on-duty Shift Supervisor, and the Human Resources Manager.

All supervisors will continue calling off-duty staff immediately upon notice of a vacant critical post to assist with shift coverage for officers that call out, fail to report for duty, or are assigned to hospital posts and/or suicide observation posts.

In addition, the facility continues to prioritize its recruitment/hiring efforts in order to fill vacancies and coverage of critical posts.

Note: Per Contract, Monitoring Instrument Staffing, Item 2b has been determined to be a Liquidated Damages Event monitoring item which results in this Breach Notice of the failure to cure in accordance with the First Breach Notice dated 11/11/2021 and Second Breach Notice dated 2/11/22. Due to this Breach Notice the State has elected to assess liquidated damages from the Second Breach Notice dated 2/11/22 until such time as the event is confirmed to be cured, consistent with the terms of the contract.

Prior Documentation of Non-Compliance: NCR/LDE issued 11/11/2021, 2/11/2022, 3/28/22, 5/6/22

Action taken by TDOC Contract Monitor: Contract Monitor Brun notified Warden Frink daily following each occurrence. Contract Monitor Walton notified Warden and TTCC Quality Assurance team 5/17/22 and 7/1/22 via email; to include notification through issuance of this non-compliance report.

Response of contractor and Plan of Corrective Action taken:

Please see attached chart reflecting post vacancies resulting from suicide watches, hospital post assignments, and/or after hours transports. Providing staffing for these unexpected circumstances is unavoidable and we respectfully request credit for each of these circumstances as noted in the chart. The remaining post vacancies are a result of staffing vacancies, staff calling out for shift, staff reporting late for shift, staff departing shift early, staff failing to report for shift, etc. ADO staff and TDOC continue to be notified of critical post vacancies, regardless of the reason for the vacancy.

TTCC is contractually required to operate 2 RHU pods. As a result of close custody inmates pending TDOC's transfer out of the facility, the facility is operating 5 RHU pods. The number of close custody inmates housed at the facility averages 86 inmates monthly and with the additional RHU pods being used places a greater burden on the facility staff to comply with RHU standards. Moreover, 5 additional full-time employees are needed, each day, to operate the additional 3 RHU pods. The number of close custody inmates pending transfer is communicated to TDOC on a weekly basis. TDOC has been unsuccessful in transferring the close custody inmates placing TTCC in violation of TDOC Policy 506.01. We respectfully request credit for the additional full-time employees assigned to the additional RHU pods as well as requesting, again, that the close custody inmates be transferred out of the facility.

In January 2019, the facility implemented a daily review of the upcoming shift rosters to ensure all required posts are appropriately scheduled for the next seven days, in an attempt to identify any likely vacancies in advance. The proactive

review is conducted by a team of multi-disciplinary staff and generally includes the Warden, Assistant Warden of Operations, Chief of Security, Master Scheduler, on-duty Shift Supervisor, and the Human Resources Manager.

All supervisors will continue calling off-duty staff immediately upon notice of a vacant critical post to assist with shift coverage for officers that call out, fail to report for duty, or are assigned to hospital posts and/or suicide observation posts.

In addition, the facility continues to prioritize its recruitment/hiring efforts in order to fill vacancies and coverage of critical posts.

Director Jordan: The Department will review the contractor's request which include *"Please see attached chart reflecting post vacancies resulting from suicide watches, hospital post assignments, and/or after hours transports. An employee referring an applicant who is hired and completes their first 40 hours of employment will receive a \$250 bonus. If the employee remains continuously employed, the employee will receive an additional bonus in an amount to be determined on the facility's "need status". Additionally, the employee who refers the most applicants (minimum of 5) that complete at least 18 weeks of employment will receive a \$15,000 bonus. Since implementation of this program the facility has received six referrals from employees. Two of the referrals were hired. For those referrals not hired, each employee who referred an applicant received a \$20 gift card.

NOTE: Per Contract, Monitoring Instrument Disciplinary Procedures, Item 1e has been determined to be a Liquidated Damages Event monitoring item which results in this Breach Notice of the failure to cure in accordance with the First Breach Notice dated 11/11/21 and the Second Breach Notice issued 2/11/22. Due to this Breach Notice the State has elected to assess liquidated damages from the Second Breach Notice dated 2/11/22 until such time as the event is confirmed to be cured, consistent with the terms of the contract.

Prior Documentation of Non-Compliance: NCR(s) issued 11/11/21, 2/11/22, and 3/28/22

Action taken by TDOC Contract Monitor: Contract Monitor Walton notified Warden Frink and QAM team in an email dated 5/24/22 and via issuance this report of non-compliance.

Response of Contractor and Plan of Corrective Action taken:

These inmates had continuances at that the time indicated by the Contract Monitor; however the documentation of the continuances does not exist at this time. The continuance documentation was not maintained by the Disciplinary Hearing Officer if the disciplinary was dismissed or found not guilty.

Starting August 22, 2022, the Disciplinary Hearing Officer will submit copies of the continuances to the Restricted Housing Unit Administrative Clerk to be filed with the inmate's segregation documentation.

Per the previous corrective action plan, since March 15, 2022, the Assistant Shift Supervisor over Restrictive Housing, Assistant Chief of Security, and Chief of Security are reviewing the MGM Segregation Without End Dates report, daily when present, to identify inmates scheduled for release and generate an inmate move sheet with all inmates scheduled for release from segregation and submit to the count room

the day before their scheduled release date. Restrictive Housing moves will be conducted on the release date, once notified by the count room of the inmate's new housing assignment. The Assistant Shift Supervisor over RHU will notify the Assistant Chief of Security and the Chief of Security via email when moves cannot be conducted or if instances arise where an inmate may be held past his segregation end date. The Chief of Security and Assistant Chief of Security will follow-up on the emails and assist in correcting the issue in an effort to prevent inmates from being held in Restricted Housing beyond their segregation end date. Staff are continuing to monitor this daily when present at the facility and seeing improvement in the area. Further non-compliance will be addressed with responsible staff and result in additional training and/or progressive disciplinary action, as appropriate, on a case-by-case basis.

Prior Documentation of Non-Compliance: NCR(s) issued 9/1/21, 2/10/22

Action taken by TDOC Contract Monitor: Contract Monitor Brun conducted 5/5/22 review and notified Warden Frink and ADO team in person. Contract Monitor Walton followed up with a review on 5/31/22 and notified Warden and QAM team via email and via issuance of this non-compliance report.

Response of Contractor and Plan of Corrective Action taken:

On August 8, 2022, Facility Process Analyst Valerie Burgess reviewed these above stated files with the Contract Monitor and all of the information noted above was located in the files as required. Based on the aforementioned, we respectfully request this finding be rescinded.

Contract Monitor's Response 8/18/22:

Disagree: Finding #1: (please omit 368675 of this report as a finding) this report was identified non-compliant on May 5, 2022, at the time of the review by the Contract Monitor. Using this report, Contract Monitor Walton reviewed Vantage, finding inmate 626780 refused RNA 4/6/22, but the refusal is still not found in the institutional file as of 8/18/22. The following offender refusals were not in the file at the time of review 5/5/22, therefore, this item remains non-compliant: 320531 and 432490. No paperwork has been received as of 8/25/22 to support this response. New compliance score: 3 of 40 reviewed non-compliant = 93% compliant.

PRIVATELY OPERATED PRISONS – NOTIFICATION OF NON-COMPLIANCE
Liquidated Damages Event

Agree; Finding #2 of this non-compliance was reviewed and may be rescinded. The review identified this finding compliant, due to the offender(s) having a completed RNA in the TOMIS system, which would not have qualified as a refusal, or were exempt to this standard per TDOC policy for those serving a sentence of 'Life'.

Director Jordan: Follow up discussions with Facility Process Analyst Valerie Burgess, AW Chris Brun and Contract Monitor Jon Walton were conducted. Based on the additional review of the contract monitor Walton findings and the final results, this Classification item 2b will remain a noncompliance finding due to documentation was not on file. TTCC contractor should submit a plan of action for compliance.

Note: Per Contract, Monitoring Instrument Staffing, Item 2b has been determined to be a Liquidated Damages Event monitoring item which results in this Breach Notice of the failure to cure in accordance with the First Breach Notice dated 11/11/2021 and Second Breach Notice dated 2/11/22. Due to this Breach Notice the State has elected to assess liquidated damages from the Second Breach Notice dated 2/11/22 until such time as the event is confirmed to be cured, consistent with the terms of the contract.

Prior Documentation of Non-Compliance: NCR/LDE issued 11/11/2021, 2/11/2022, 3/28/22, 5/6/22

Action taken by TDOC Contract Monitor: Contract Monitor Brun notified Warden Frink daily following each occurrence. Contract Monitor Walton notified Warden and TTCC Quality Assurance team 5/17/22 and 7/1/22 via email; to include notification through issuance of this non-compliance report.

Response of contractor and Plan of Corrective Action taken:

Please see attached chart reflecting post vacancies resulting from suicide watches, hospital post assignments, and/or after hours transports. Providing staffing for these unexpected circumstances is unavoidable and we respectfully request credit for each of these circumstances as noted in the chart. The remaining post vacancies are a result of staffing vacancies, staff calling out for shift, staff reporting late for shift, staff departing shift early, staff failing to report for shift, etc. ADO staff and TDOC continue to be notified of critical post vacancies, regardless of the reason for the vacancy.

TTCC is contractually required to operate 2 RHU pods. As a result of close custody inmates pending TDOC's transfer out of the facility, the facility is operating 5 RHU pods. The number of close custody inmates housed at the facility averages 86 inmates monthly and with the additional RHU pods being used places a greater burden on the facility staff to comply with RHU standards. Moreover, 5 additional full-time employees are needed, each day, to operate the additional 3 RHU pods. The number of close custody inmates pending transfer is communicated to TDOC on a weekly basis. TDOC has been unsuccessful in transferring the close custody inmates placing TTCC in violation of TDOC Policy 506.01. We respectfully request credit for the additional full-time employees assigned to the additional RHU pods as well as requesting, again, that the close custody inmates be transferred out of the facility.

In January 2019, the facility implemented a daily review of the upcoming shift rosters to ensure all required posts are appropriately scheduled for the next seven days, in an attempt to identify any likely vacancies in advance. The proactive

review is conducted by a team of multi-disciplinary staff and generally includes the Warden, Assistant Warden of Operations, Chief of Security, Master Scheduler, on-duty Shift Supervisor, and the Human Resources Manager.

All supervisors will continue calling off-duty staff immediately upon notice of a vacant critical post to assist with shift coverage for officers that call out, fail to report for duty, or are assigned to hospital posts and/or suicide observation posts.

In addition, the facility continues to prioritize its recruitment/hiring efforts in order to fill vacancies and coverage of critical posts.

Director Jordan: The Department will review the contractor's request; ***"Please see attached chart reflecting post vacancies resulting from suicide watches, hospital post assignments, and/or after hours transports. An employee referring an applicant who is hired and completes their first 40 hours of employment will receive a \$250 bonus. If the employee remains continuously employed, the employee will receive an additional bonus in an amount to be determined on the facility's "need status". Additionally, the employee who refers the most applicants (minimum of 5) that complete at least 18 weeks of employment will receive a \$15,000 bonus. Since implementation of this program the facility has received six referrals from employees. Two of the referrals were hired. 1. Provide an explanation as to what was the corrective action taken previously for this item.

On November 21, 2019, the Clinical Nursing Supervisor sent a directive via email to all nursing staff regarding the procedure for notifying the Contract Monitor via email after hours and weekends when an order has been given for an inmate to be placed in mental health seclusion or suicide monitoring. The Psychiatrist/APN/Psychologist will continue to ensure notification is sent to the Contract Monitor during normal business hours. Beginning February 28, 2020, the Quality Assurance Manager will review all Contract Monitor Notifications by clinical staff to verify notifications were sent within the appropriate timeframe. This review will be conducted until compliance is achieved for three

consecutive months and will be documented on the Contract Monitor Notification Log. Any deficiencies identified will be reported to the Clinical Nursing Supervisor for further action.

2. Was the corrective action actually implemented? Partially

3. What were the reasons the previous corrective action failed? Due to the unforeseen vacancies of mental health staff and turnover in department leadership, the corrective action steps were not consistently being followed.

4. How will the upcoming POCA be different and ensure the action is truly corrected? Compliance monitoring will be conducted by the Compliance Nurse, logged, and any non-compliance reported to the Health Services Administrator for further action.

Response of Contractor and Plan of Corrective Action taken:

During normal business hours, the Psychiatrist/APN/Psychologist will notify the Contract Monitor of Operations (CMO) within one hour of an order being given for an inmate to be placed in mental health seclusion or suicide monitoring. This notification will be done via email to include the Supervisor on Duty, the Clinical Supervisor, and the Contract Compliance Nurse. After normal business hours, nursing staff will notify the Contract Monitor of Operations (CMO) within one hour of an order being given for an inmate to be placed in mental health seclusion or suicide monitoring. This notification will be sent via email to include the On-Call Supervisor, the Clinical Supervisor, and the Contract Compliance Nurse. The Health Services Administrator (HSA) or designee will conduct training with all staff regarding this process no later than November 15, 2020. ****Due to this item repeating non-compliance please provide an in-depth explanation for the following in addition to providing a new POCA:***

1. Provide an explanation as to what was the corrective action taken previously for this item.

On August 19, 2019, the Mental Health Nurse began a 100% chart review of all inmates receiving mental health services to identify any discrepancies on the Mental Health Encounter Log. The chart review was completed on August 22, 2019 and the log was updated to reflect accurate information. The Mental Health APN will continue to review intake logs and ensure inmates new to the facility or returning from temporary transfer are scheduled for annual appointments when due and notify the Mental Health Nurse to place them on the schedule. The Compliance Nurse will continue to review charts weekly and will report discrepancies to the Health Services Administrator.

2. Was the corrective action actually implemented? Implemented initially; however, staff turnover resulted in action steps not being followed.

3. What were the reasons the previous corrective action failed? Due to the unforeseen vacancies of the Mental Health Nurse position and turnover in department leadership, the corrective action steps were not consistently being followed.

4. How will the upcoming POCA be different and ensure the action is truly corrected? The Mental Health Nurse will create a log to track due dates for visits by the Psychiatrist, with inmates scheduled every 11 months on the log. The Compliance Nurse will review the log monthly and any not completed will be scheduled for completion prior to the end of the 12 month due date.

Response of contractor and Plan of Corrective Action taken:

A new Mental Health Nurse was hired on October 5, 2020. The Health Services Administrator (HSA) or designee will conduct training with the Mental Health Nurse regarding expectations for this corrective action plan by November 11, 2020. The training will be documented on a 4-2A Training/Activity Attendance Roster.

By November 15, 2020, the Mental Health Nurse will create a log to track due dates for visits by the Psychiatrist. Inmates will be scheduled to be seen by the Psychiatrist every 11 months.

Starting December 2020, the Compliance Nurse will review the log monthly by the 15th of each month to verify all visits have been completed. For any visits not completed, the Clinical Director will be notified and the inmate scheduled to be seen by the Psychiatrist prior to the end of the 12 month due date. This monitoring will continue until compliance is achieved for three months. The monitoring will be documented on the Compliance Tracking Log. The Health Services Administrator will be notified for any findings of non-compliance. Further non-compliance will result in counseling,

additional training and/or disciplinary action, as appropriate.

****Due to this item repeating non-compliance please provide an in-depth explanation for the following in addition to providing a new POCA:***

1. Provide an explanation as to what was the corrective action taken previously for this item.

Effective August 8, 2019, the Mental Health APN will be required to co-sign any verbal orders given for emergency calls after hours the following business day. This new expectation was communicated to the APN on August 8, 2019, and was documented on a 4-2A Training/Activity Attendance Roster. The Compliance Nurse will continue to audit charts and documentation on a weekly basis with a focus on repeat findings. For further non-compliance, the Health Services Administrator or designee will conduct one-on-one training with the responsible staff member, which will be documented on a 4-2A Training/Activity Attendance Roster. Continuous non-

PRIVATELY OPERATED FACILITY-NOTIFICATION OF NON-COMPLIANCE

compliance will result in counseling and/or disciplinary action, as deemed appropriate. In addition, the Clinical Nursing Supervisor issued an email directive on August 27, 2019 to all nursing staff to ensure when noting all provider orders, the nurse must ensure the order is completed, and timely as necessary. As the Mental Health Nurse reviews each chart following Mental Health Seclusion and/or Suicide Precaution discharge for TOMIS entry, any missing documentation on the CR-3082 is communicated to the responsible staff member for review and correction.

2. Was the corrective action actually implemented? Implemented initially; however, staff turnover resulted in action steps not being followed.

3. What were the reasons the previous corrective action failed? Due to COVID-19 and unforeseen vacancies of the Mental Health Nurse position and turnover in department leadership, the corrective action steps were stopped being followed.

4. How will the upcoming POCA be different and ensure the action is truly corrected? Due to the COVID pandemic and staff turnover, this process was interrupted, however we still believe that this plan of action would correct the issue and will reinstate it with the new department leadership.

Response of contractor and Plan of Corrective Action taken:

A new Mental Health Nurse was hired on October 5, 2020. Beginning November 15, 2020, the Mental Health Nurse will be required to co-sign any verbal orders given for emergency calls after hours, the following business day. The Health Services Administrator (HSA) or designee will conduct training with the new Mental Health Nurse on this expectation no later than November 11, 2020. Training will be documented on a 4-2A Training/Activity Attendance Roster.

Starting November 17, 2020, the Compliance Nurse will resume auditing charts and documentation on a weekly basis with a focus on repeat findings. The monitoring will be documented on the Compliance Tracking Log. The Health Services Administrator will be notified for any findings of non-compliance. Further non-compliance will result in counseling, additional training and/or disciplinary action, as appropriate.

Staff with continuous non-compliance will receive additional training and/or disciplinary action, as appropriate.

Response of contractor and Plan of Corrective Action taken:

During the period evaluated, there were multiple vacancies on the TTCC mental health team making it difficult to check on inmates in segregation consistently. A new Clinical Director and a new Mental Health Coordinator were hired on May 18, 2020.

In September 2020, the new Clinical Director implemented a new process, which divided the segregation caseload among the entire mental health staff collectively to ensure all 3 day, 7 day, and 30 day screenings are completed. Additionally, the Clinical Director revised the electronic log used to track the timeliness of segregation checks and monitors it daily.

Starting November 15, 2020, the Contract Compliance Nurse will review the log weekly to monitor compliance. This monitoring will continue until compliance is achieved for three months. Action taken by TDOC Contract Monitor: Warden Byrd notified via this email document.

Response of contractor and Plan of Corrective Action taken:

During the period evaluated, there were only 2 mental health staff employed, making it difficult to complete and document the C-SSRS in a consistent manner. An additional permanent Mental Health Coordinator was hired on May 18, 2020.

The Clinical Director revised the electronic log and informally educated staff on the new process on August 10, 2020. Starting November 9, 2020, designated staff will upload all completed C-SSRS into electronic files for future reference. The Health Services Administrator or designee with complete formal training with responsible staff by November 15, 2020, which will be documented on a 4-2A Training/Activity Attendance Roster.

Starting November 17, 2020, the Contract Compliance Nurse will review C-SSRS weekly to monitor compliance. This monitoring will continue until compliance is achieved for three months. The monitoring will be documented on a Compliance Tracking Log. Further non-compliance will result in counseling, additional training and/or disciplinary action, as appropriate.

Action taken by TDOC Contract Monitor: Jacqueline Jordan, Quality Assurance Clinical Health Services Auditor notified Warden Byrd via email 8-18-20.

Response of Contractor and Plan of Corrective Action taken:

The Clinical Nurse Supervisor sent an email directive to all nursing staff on October 7, 2020, regarding the importance of utilizing the pre-printed Progress Notes, which contain a section that explicitly outlines the proper protocol for documenting and logging emergency calls, including separate spaces for time call was placed and time answered, even if the times are identical. Additionally, the Health Services Administrator or designee will review this procedure again with all staff during the November 2020 department meeting, which will be documented in the meeting minutes and on a 4-2A Training/Activity Attendance Roster. The Compliance Nurse will continue to review emergency logs to verify that the pre-printed Progress Notes are being utilized so that all times are documented per policy requirements. The reviews are documented on the Compliance Tracking Log. The Health Service Administrator will continue to be notified of findings of non-compliance. Further non-compliance will result in counseling, additional training and/or disciplinary action, as appropriate.

****Due to this item repeating non-compliance please provide an in-depth explanation for the following in addition to providing a new POCA:***

1. Provide an explanation as to what was the corrective action taken previously for this item. In August 2019, medical staff began a 100% medical chart and chronic care log audit and many discrepancies were identified and corrected prior to the audited quarter. On November 2-3, 2019, a Saturday and Sunday, Chronic Care Nurses and providers reported to the facility and held clinic to address the backlog of inmates needing to be seen. Beginning January 2020, the Chronic Care Nurses will schedule inmates at least 14 days prior to the next chronic care due date. TTCC realizes the importance of inmates being seen on time and continues to focus on monitoring the Chronic Care Log for accuracy and scheduling issues. The facility Medical Director has been tasked with close monitoring and reporting any continued issues to the Assistant Warden, Treatment.

2. Was the corrective action actually implemented? Yes

3. What were the reasons the previous corrective action failed? The proper appointment refusal

PRIVATELY OPERATED FACILITY-NOTIFICATION OF NON-COMPLIANCE

process was not being utilized by chronic care providers when inmates refused treatment or declined to appear for their scheduled appointments. Rather than completing a signed refusal form, providers were simply rescheduling the inmates repeatedly, which caused the backlog to expand.

4. How will the upcoming POCA be different and ensure the action is truly corrected? The importance and utility of the inmate refusal forms have been reinforced with providers and chronic care nurses so that they understand the process of inmate appointment refusals, which decreases the number of erroneous appointment entries on the chronic care schedule. We have also instituted a weekly chronic care blitz that allows us to treat a concentrated number of inmates, thereby lessening the chance that a backlog will reoccur.

Response of Contractor and Plan of Corrective Action taken:

Beginning July 10, 2020, the Health Services Administrator and Chronic Care Registered Nurse filtered the chronic care backlog to determine the true number of backlog inmates.

On July 17, 2020, the Health Services Administrator instituted a weekly chronic care blitz program with the goal of completing at least 80 chronic care appointments on each blitz day; this projection would eliminate the existing chronic care backlog by the end of October 2020. The backlog was eliminated on October 29, 2020. The HSA will incorporate an on-going weekly chronic care blitz in an effort to eliminate a further backlog.

The Clinical Nurse Supervisor sent an email directive to all nursing staff on October 7, 2020, regarding the importance of utilizing the pre-printed Progress Notes for Sick Call, which explicitly outline the proper protocol for documenting and logging Sick Call appointments. Additionally, the Health Services Administrator explained the necessity of utilizing the pre-printed SOAP Notes for Sick Call in the October 2020 staff meeting that took place on October 9, 2020. This is reflected in the department meeting minutes and documented on a 4-2A Training/Activity Attendance Roster. Medical personnel who fail to comply with the departmental protocol of utilizing the pre-printed Progress Notes for Sick Call will receive additional training and/or disciplinary action, as appropriate.

The Infection Control Nurse responsible for the above discrepancies is no longer employed at this facility as of May 26, 2020. The new Infection Control Nurse that was assigned into this position on July 6, 2020 received one-on-one education regarding the process of documenting PPD refusals per policy requirements by the Clinical Nurse Supervisor and the Contract Compliance Nurse.

Starting November 9, 2020, the Compliance Nurse will review PPD refusals monthly to monitor compliance. This monitoring will continue until three months of compliance is achieved. The reviews are documented on the Compliance Tracking Log. The Health Service Administrator will continue to be notified of findings of non-compliance. Further non-compliance will result in counseling, additional training and/or disciplinary action, as appropriate.
